Health Emphasis Month

The Health Emphasis month is a great way to have a Health focused time for both the church as well as for your community. We work with you ahead of time to plan and coordinate all that is needed to conduct this.

Health and The Gospel

In all that we do, we attempt to keep Jesus at the center so that the participants can see the vital need for making the choices for better health.

*The Saviour made each work of healing an occasion for implanting divine principles in the mind and soul. This was the purpose of His work. He imparted earthly blessings, that He might incline the hearts of men to receive the gospel of His grace.

How We Work:

We understand that many churches and ministries have visions and desires for performing various health related events to reach out to and help their local communities, but they may not

have the manpower, resources, or even the knowledge as to how to go about putting on a program to help their community. This is where we come in, literally - we come in, to you. "Genesis Health Revolution" brings health-related education to you and works with you to both help your community as well as to teach you how to continue doing the same life-changing educational health programs. We have a variety of program that we will work with you ahead of time so we can build a custom program suited to fit your specific needs and desires for your community by adding various elements together to build the very best program for your desired plan. View our website for more information and testimonies, and feel free to contact us with any questions you have or to discuss setting up a program for you. We work entirely on a donation basis.
